

Help make a difference through the GreenPower program

Renewable Energy Education

GreenPower

Help protect our precious environment by participating in the GreenPower program.

It's easy to join and make a difference in our community. NV Energy and the Desert Research Institute (DRI) share your vision to maintain a cleaner, greener environment.

GreenPower is funded through special grants and NV Energy

customer donations. The program has provided for solar and wind equipment installation at 15 Nevada schools.

Visit our website at nvenergy.com/greenpower. As a contributor to the GreenPower program, you can:

- Designate the monthly amount you'd like to contribute to the program and it will be added to your NV Energy bill.

- Deduct your donation from your federal income tax.
- Know that 100 percent of your designated funds goes directly to the DRI Foundation.

Together, we can continue to ensure that Nevada is a leader in promoting clean, renewable energy.

To contribute to the GreenPower program, visit nvenergy.com/greenpower

Our offices will be closed on Thursday, December 25, in observance of Christmas and Thursday, January 1, in observance of New Year's Day.

Holiday Lighting Safety

If you plan on installing holiday lighting this year, remember to stay safe. The amount of electricity necessary to light a single 7.5 watt holiday light bulb can stop your heart.

- Do not string more than three sets of lights together (end to end) as they can heat up, melt, or start a fire. Always follow the manufacturer's instructions.
- Use outdoor-rated lights and extension cords when using lights outdoors.
- Do not expose extension cord plugs to water from sprinklers.
- Use multiple ground fault circuit interrupter (GFCI) protected outlets for powering

outdoor lights to avoid overloading one circuit in your home.

- Always unplug your lights before you change a defective or broken bulb and never use an aluminum ladder, as the risk of electric shock is greater.

The Gift of Lights

CFLs to be distributed on Dec. 17, NV Energy Evening

The Gift of Lights is a holiday drive-thru spectacular at Sunset Park in Las Vegas, open nightly at 5 p.m. until Jan 4. Admission is \$13 per vehicle. You won't want to miss holiday fun for the entire family with more than 400 animated and twinkling LED light displays.

On Dec 17, during NV Energy Evening, visitors will receive a compact fluorescent lamp (CFL) per car, while supplies last. For more information, visit giftoflights.com or call (702) 451-1641.

Save Money With The Flick Of A Switch

NV Energy is proud to offer customers innovative incentives on purchases of energy efficient compact fluorescent light lamps (CFLs). Look for utility-sponsored discounts at Nevada retailers of up to 90 percent off regular retail prices on CFLs—from the popular “twist” bulbs to recessed and dimmable can lights, globes and more. For a list of retailers and products visit nvenergy.com/cfl/.

CFLs use up to 75 percent less energy and last up to 10 times longer than standard incandescent light bulbs. NV Energy is committed to helping you save money by saving energy as you manage your energy usage. Special pricing is available while supplies last.
