

*The applicable Service Charge will be made each time an account is opened, including a turn-on, meter set or reconnection of service or a change in account, and in instances where the customer-requested service calls are not related to problems with utility-owned facilities.

When the turn-on, meter set or change of account involves a combination of gas and electric service, which is accomplished at the same time, NV Energy will apply a single service establishment charge for all services.

** Before 8 a.m. or after 5 p.m., weekends and holidays or within 4 hours of request.

ADDITIONAL CHARGES

Late Charge: 1 percent of any amount in arrears from the previous billing.

Local Government Fee: A tax of variable amount as imposed by any political subdivision such as business license fees, gross receipts tax or other similar tax. The Local Government Fee is calculated by multiplying the percent of the fee (Washoe County currently is 5 percent) times the total bill prior to the franchise fee minus the Universal Energy Charge.

Returned Check Charge: \$10.00 for each check processed and returned by a bank.

Universal Energy Charge: \$0.00330 per all therms of natural gas usage. Monies go to the State of Nevada fund for energy assistance and conservation as set forth in NRS 702.010 to 702.282.
