Rule No. 8  
CONTINUITY OF SERVICE

A. Shortage and Interruption

The Utility will exercise reasonable diligence to furnish a continuous and sufficient supply of electricity to its Customers and to avoid any shortage or interruption of delivery thereof. It cannot, however, guarantee complete freedom from interruption.

The Utility will not be liable for interruptions or shortage of supply, nor for any loss or damage occasioned thereby, unless occasioned by negligence or wrongful act of the Utility.

B. Temporary Suspension for Repairs

The Utility will have the right to suspend service temporarily for the purpose of making necessary repairs or improvements to its system. When this becomes necessary, it will give to the Customers who may be affected as reasonable notice thereof as circumstances will permit, and will prosecute the work with reasonable diligence.

C. Apportionment of Supply During Time of Shortage

During times of shortage of supply, the Utility will apportion its available supply of electricity among its customers as directed by the Public Service Commission. In the absence of directions from the Commission it will apportion the supply in the manner that appears most equitable under conditions then prevailing.
