

****** Important Notice ******

Limited Time Incentive Bonus Available
for NV Energy Fort Churchill Generating Area
Sure Bet Commercial Retrofit Projects.

The NV Energy Sure Bet Program is currently offering
a limited time Bonus Incentive
for Fort Churchill Generating Area Commercial Retrofit Projects
installed between February 1, 2009 and December 1, 2009.

Projects *completed by December 1, 2009*, can earn a **25% bonus** above the
previously announced 2009 program incentives.

This limited time offer is provided to encourage completion of projects in
2009 for NV Energy Commercial Retrofit Projects in the Fort Churchill
Generating area only. This area encompasses Silver Springs, Stagecoach,
Dayton, Virginia City, Carson City, Jacks Valley, Minden, Gardnerville,
Glenbrook, Zephyr Cove, and Stateline, Nevada. Actual affected zip codes
given in the Installation Bonus Policies and Procedures.

The Policies and Procedures for this Project Installation Bonus Program are
listed in the attached document.

Contact the Sure Bet Team at 800-342-6335
or email surebet@nvenergy.com
with any questions.

Fort Churchill Sure Bet Installation Bonus Outline of Policies and Procedures

- Sure Bet projects in NV Energy’s Fort Churchill service area that are completed between February 1, 2009 and December 1, 2009 are eligible for an installation bonus of 25%. Project incentive will be paid at 125% of the calculated incentive, subject to the limitations described below.
- All measures must be installed at a physical location within one of the following zip codes: 89701, 89702, 89703, 89705, 89706, 89711, 89712, 89713, 89714, 89721, 89410, 89423, 89460, 89413, 89448, 89449, 89403, 89429, and 89440. See attached map, which provides a guideline of the affected areas; the actual zip code is the final determination of eligibility.
- Incentives, including the bonuses, will be limited by the tiered customer limits given in Section P.6.1 of the 2009 NPC Sure Bet Policies and Procedures Manual. For example, a project with a \$120,000 calculated incentive that qualifies for the bonus:

	Regular Sure Bet Program	With Bonus
Calculated Incentive	\$120,000	\$120,000
Bonus		\$30,000
Total Calculated Incentive	\$120,000	\$150,000
Paid Incentive		
1 st 100K	\$100,000	\$100,000
Over 100K @ 50%	\$10,000	\$25,000
Total Paid Incentive	\$110,000	\$125,000

- A Request for Payment application must be submitted **prior to** the applicable deadline. **All required paperwork** including invoices must be submitted along with the request for payment application.
- All projects requesting the bonus must have a post-inspection. As with all projects that apply for an incentive through the Sure Bet Program, a pre-notification application is recommended, so that if a pre-inspection is required it can be performed prior to work commencing.
- Projects that are completed prior to February 1, 2009 are not eligible for the bonus payment.
- All other Sure Bet Program requirements not specifically modified by these policies and procedures apply.
- The installation bonus is only available for projects (prescriptive or custom) in NV Energy’s Fort Churchill Generating Area. This bonus is not available in the NV Energy’s California or Southern Nevada service territory, or in the Northern Nevada Service Territory outside of the Fort Churchill service area. It is also not available for new construction, direct install, school, or upstream projects.
- Final determination of whether a project qualifies for the installation bonus rests with the NV Energy Program Manager.
