

PROPOSED RATE CHANGE

On March 1, 2013 Nevada Power Company d/b/a NV Energy made its annual electric Deferred Energy Accounting Adjustment with the Public Utilities Commission of Nevada. The filing seeks approval of fuel and purchased power expenses for the 12-month period ending December 31, 2012. The filing requests permission to reset the renewable energy program rate, and the TRED rate. Finally, the filing requests permission to reset all the components of the energy efficiency rates.

The effect of granting this application will be to decrease overall revenue by \$48,968,294 or 2.40 percent overall rate classes.

The chart on the reverse side contains a list of customer classes and their associated proposed percentage and dollar amount changes. These rate changes are approximate and represent averages for each customer class. Actual changes to individual customers' bills will vary. The rate changes depicted represent the company's calculation of the DEAA base and net of the Energy Efficiency request that will be determined prior to the consumer session or the hearings for this filing.

Ultimately the PUCN may set rates that are higher or lower than those requested by the company.

The company's applications are available for review at nenergy.com/rates/filings, or any NV Energy office, or the Offices of the PUCN at:

1150 East William Street or 9075 West Diablo Drive, Suite 250
Carson City, NV 89701 Las Vegas, NV 89148

Interested persons who are unable to attend these sessions may send comments in writing to the PUCN offices at the address above.

The chart below reflects the adjustment for the average monthly bill for each customer class. Actual changes to individual customers' bills will vary depending on the level of consumption.
