

Man's Best Friend Shouldn't Be Your Bill's Worst Enemy.

Discover lots of ways to cut energy costs without sending anyone to the doghouse. Like vacuuming your refrigerator's clogged coils to keep it running more efficiently. Or if you get a new, energy efficient fridge, we'll pick up your old one and give you \$50.

Call Before You Dig.

If you plan to install a mailbox, build a deck or plant a tree or garden, don't forget to call 811 two days before beginning any digging project. Every six minutes an underground utility line in America is damaged because someone dug without first calling 811 or Underground Service Alert at (800) 227-2600. Striking a single utility line can lead to injury, costly repairs, fines and outages.
