

Save with mPowered

Rake in the savings. NV Energy's smart thermostat program mPowered, can save you up to \$100 a year. Fall into savings with installation of up to four free smart thermostats. Create your own personal heating and cooling schedules and use our free mobile app to make adjustments on the go.

It's easy to make this your season of savings.

Learn more at nvenergy.com/mPowered. Sign up online through MyAccount, or call our dedicated mPowered Customer Care Team toll free at 855-676-9373.

Your Safety

NV Energy's number one priority is the safety of our customers and our employees. If you see our workers in your area, please keep your distance. We could be working on live electrical equipment or natural gas systems. Thank you for your cooperation.

We're putting all of our energy into your energy.

ANYBODY UP FOR SOME LOWER RATES?

As of October 1, you're paying a little less for energy. In fact, this is the second time your rates have gone down this year. But we're still not satisfied. We will continue to find ways to decrease our costs and pass those savings on to you. Because we are customers too.

Convenience at Your Fingertips

Check out NV Energy's mobile app.
It's free, convenient and simple to use.

Small Changes, Big Savings

During the winter, each degree you lower your thermostat to a temperature below 70 degrees saves 3 to 5 percent on your heating costs. For more energy conservation tips visit nvenergy.com/savemyway.

Little Things Can Make a Big Difference in Your Energy Bill

Save big with our simple tips. Like setting your water heater's temperature to 120 degrees – hot enough to remove tough stains, but cool enough to keep your costs from rising. Access more tips and helpful efficiency programs at nvenergy.com/savemyway.
