

## SMALL BUSINESS CUSTOMERS SAVE WITH POWERSHIFT

NV Energy's commercial energy services helps small businesses increase their energy efficiency. Eligible customers receive a free facility assessment, low-cost equipment installation and more. Qualifying equipment includes interior and exterior lighting, refrigeration controls and digital programmable thermostats.

### Benefits

Participating small businesses receive:

- A free facility assessment to identify all potential energy-saving equipment opportunities
- A detailed proposal that includes a list of recommendations, energy savings estimates, project cost, payback period and rebate amount
- Installation of qualifying energy-saving equipment

- Inspections conducted to ensure quality and verify energy savings
- Energy bill cost reductions

### Eligibility

Non-residential NV Energy customers with annual electricity use below 400,000 kWh are eligible.

### Rebate Funds

The relative percentage of project cost covered by the incentive, and the actual savings and payback periods will vary for each project. This information will depend on the energy efficiency equipment installed, building characteristics, customer usage patterns, age of existing equipment, location and other parameters specific to the project.

***Because you can never save too much.***
