

Commercial Energy Services Contractor Network

Commercial Energy Services offers incentives to commercial customers to reduce energy use in new and existing buildings. If you're in the business of helping NV Energy commercial customers save energy, you should consider joining the **Commercial Energy Services Contractor Network**.

Members of the Contractor Network are trained on the Commercial Energy Services processes and procedures. All participants must be committed to assisting customers with energy efficiency improvements and application support.

Benefits include

- Company information available on the Commercial Energy Services website.
- Free program training.
- Access to information on the services available for marketing purposes.
- Technical support for project assessment and customer relations.

To Apply

Return the completed application (via email or fax):

E-mail: commercial@nvenergy.com

Fax: 1-702-216-2729

The Commercial Energy Services team will review all applications to verify the information provided. A team member will reach out to the point of contact, listed on the application, if any information is missing or inadequate. You will be notified via email when your application is approved, and your company information will be available to customers at nvenergy.com/commercial.

IMPORTANT: The information completed on the "Company Information" segment of the application will be the information included in our online contractor directory. We will use all additional contact information listed to notify you about rebate updates, special offers, upcoming events, and other services.

Commercial Energy Services provides the Contractor Network list as a convenience for customers for informational purposes only. It does not constitute an endorsement of these contractors, nor a preference among the companies listed. Participating Contractors do not work for NV Energy and may not present themselves as approved, authorized, or endorsed by NV Energy.

Any Company found to be misrepresenting themselves or misusing NV Energy materials will be removed from the Commercial Energy Services Contractor Network.
