SPECIAL CONDITIONS

1. **UEC.** The Universal Energy Charge (UEC), pursuant to NAC 702.150 through 702.450, will go to fund the Nevada fund for energy assistance and conservation. Under certain circumstances, Customers will be refunded amounts paid in excess of \$25,000 per calendar quarter. The Commission will administer the collection of the UEC, certify exemptions, and administer refunds. Exemptions are generally kWh sold to
 - a) Any governmental agency, including the State of Nevada and any political subdivision thereof, and
 - b) Any Customer using electrolytic-manufacturing processes.

Except as provided above, all kWh sold are subject to the charge. The UEC is not subject to the charges applicable under the Tax Adjustment Charge.

2. **Installation Charge.** The above rates are based upon installations consisting of one lamp per pole. For each additional lamp installed in an installation in excess of one, an additional charge per such lamp will be made at the existing pole rate.
3. **Standard Equipment.** Utility will, at its own expense, install, operate and maintain its standard outdoor area lighting equipment. Equipment shall consist of an open type fixture, photo-electric switch control and a support mounted on a pole at which 120/240 volt service is available from Utility's overhead or underground circuits.
4. **New Installation Investments.** Utility shall not be required to make investments in new installations in excess of the following:

Lamp Size	Multi-Use Wood Pole (overhead)	New Wood Pole (overhead)	New Wood Pole (underground)	New Metal Pole (overhead)	New Metal Pole (underground)
High Pressure Sodium					
70 W	\$964	\$1,871	\$2,698	\$2,962	\$3,174

The 22,000 Lumen lamp installation is closed to new customers.

5. **Billing.** Billing for a lamp will be billed only to one account. Prorated billing to several accounts for one lamp or a combination of lamps will not be made.
6. **Maintenance.** Maintenance will normally be performed on a group or area basis. Individual maintenance will be done during regular working hours as soon as practicable, subject to Utility's operating schedules, after Customer has notified Utility of service failure. Credit for lamp outages will not be allowed.
7. **Approval for Equipment Locations.** The applicant shall obtain proper approval for equipment to be located on public thoroughfares and shall obtain all proper permits and rights-of-way across private property.
8. **Contract for Service.** A contract may be required for service hereunder for a minimum term of three (3) years.
9. **Underground Service Specifications.** The necessary trenching, backfilling and paving for underground service hereunder together with any required select backfill materials shall be furnished by Applicant at his expense and in accordance with applicable Utility and/or other specifications.
10. **Burning Hours.** Service hereunder is for dusk-to-dawn burning hours of approximately 4,132 hours per year.
11. **Replacement.** Utility may, at its option, replace any lamp served hereunder with a high-pressure sodium lamp of a lumen rating agreed to by the Customer. Billing subsequent to replacement shall be in accordance with the appropriate rate for the size and type of high pressure sodium lamp installed.
12. **Construction Allowance.** Investment amounts for new installations in excess of the construction allowance section of Special Condition No. 3 shall be subject to the tax liability factor or surcharge provisions as specified in Electric Rule No. 9.
