

Schedule RPE
RETAIL POWER EXCHANGE

APPLICABLE

This rate schedule is applicable when all of the following conditions have been met.

1. The Customer shall be currently or could be served by the Colorado River Commission pursuant to NRS 704.787.
2. The following generation and operation conditions exist:
 - A. The Customer shall own all or a share of a generation plant (hereinafter referred to as "Generator") of which an amount of capacity not less than 100,000 kilowatts shall be dedicated to the Utility.
 - B. The Generator shall be located within the Utility's control area. The in-service date of the Generator may be before or after the effective date of this rate schedule.
 - C. An amount of capacity from the Generator shall be dedicated to the Utility.
 - D. An agreement ("Agreement") shall be entered into and approved by the Commission prior to initiation of service. The Agreement shall specifically set forth all of the pricing, terms and conditions of the power exchange transaction, including the amount of capacity dedicated to the Utility.

TERRITORY

Entire Nevada Service Area, as specified.

RATES

Monthly charges under this schedule shall be specified in the Agreement.

SPECIAL CONDITIONS

1. **Service to Be Provided.** The Utility shall provide to the Customer an amount of firm capacity and energy to an identified point of delivery as specified in the Agreement. Service shall not be delivered at the Customer's meter.
2. **Minimum Term.** The term of the Agreement under this rate schedule shall be no less than 5 years. Any Agreement entered into under this rate schedule shall not be modified without the prior written consent of the Utility and the Customer.
3. **Not a Replacement.** Service hereunder shall not replace service under either Schedule No. DOS or Schedule No. IP but may be used in addition to such rate schedules.
