Energy Insights

Is your refrigerator running? Make sure it and your other appliances are doing so efficiently using our Online Energy Assessment – just one of the great features at the all-new nvenergy.com. Understand your electric costs, then get personalized recommendations on ways to conserve more energy and save more money. Log on to MyAccount at nvenergy.com to get started.

Safety First

Our field employees provide a valuable service to you. However, sometimes deceitful people attempt to imitate our employees in an attempt to gain access to your property or information. Be aware that all of our employees wear NV Energy identification that includes their photo, and you can always call us to verify employment. Also, NV Energy field employees are never authorized to receive payment – anyone who claims to be our employee and asks for money is attempting fraud. We care about your safety, so please log on to nvenergy.com/safety to learn more.

Powerful Partnership Scholarship Program

The NV Energy Foundation offers one-time scholarships of \$1,000 to high school seniors through its Powerful Partnership Scholarship Program. The scholarships are awarded based on academic achievement, community service and letters of recommendation. High school seniors in public or private high schools within NV Energy's service territory should submit applications by January 31, 2018. Visit nvenergy.com/scholarships for complete eligibility criteria and to apply.

Did You Know...?

Nevada saw a 44 percent reduction in carbon pollution from the power sector between 2005 and 2015, making it sixth in the nation for carbon reduction. We are committed to continuing that success with our renewable energy portfolio that includes 19 geothermal projects, 14 solar projects and about a dozen wind, biomass, hydro and waste heat renewable energy projects. Learn more at nvenergy.com/cleanenergy.
