

What's all the buzz?

If you're thinking of joining the growing number of Nevadans driving an electric vehicle (EV), take our new Electric Vehicle Comparison Tool for a test drive! It can help you make an informed decision before buying by comparing purchase prices and fuel costs of EVs versus gas engine vehicles, showing you available tax credits and rebates, projecting personalized savings, and more. Visit nvenergy.com/ev to get started. Plus, while you're there, learn more about special rates available for EV owners, and new incentives for business customers interested in installing EV charging stations.

¡Excelentes noticias!

Nuestra página Web ganadora de premios ya está disponible en español. Usted puede pagar su recibo, ver su uso de energía, y mucho más. Déle un vistazo a es.nvenergy.com.

Energy storage incentives

Incentives are now available for home and business customers considering energy storage solutions to complement their renewable energy system. Energy storage systems with a capacity between 4 kW and 1,000 kW may qualify for the incentive. Visit nvenergy.com/storage for complete details, including incentive levels.

Power of Good Giveaway

As part of our most recent Power of Good Giveaway, votes were cast by customers to determine which of 60 eligible nonprofit organizations across the state would receive a portion of \$30,000 from the NV Energy Foundation* for positive community impact. Congratulations to the award recipients:

NORTHERN NEVADA		SOUTHERN NEVADA	
Sierra Safari Zoo	\$10,000	Tortoise Group	\$10,000
Friends of Nevada Wilderness	\$3,000	Community Cat Coalition of Clark County	\$3,000
Keep Truckee Meadows Beautiful.....	\$2,000	Blind Center of Nevada.....	\$2,000

Visit nvenergy.com/poggiveaway to learn more about these great causes that provide valuable services and programs to support environmental sustainability and stewardship.

*The NV Energy Foundation is not funded by ratepayers.

Begin your winter prep

Our tree trimming program is intended to help protect you and your property by maintaining electric reliability. There are also laws in place to ensure safety by requiring a minimum clearance space between trees and power lines. Prepare now for winter hazards like blowing winds and heavy snows that can increase the chances of branches falling into power lines and causing outages. Visit nvenergy.com/tree to learn more.

Say goodbye to your bill

What if you could eliminate your monthly energy bill and have greater flexibility over your account, including the control to pay how much you want, whenever you want? With FlexPay, you can! Our newest payment option is a pay-as-you-go service with no credit check, no deposit, no late fees and no reconnect fees, so you can better plan around your lifestyle, schedule and budget. Plus, you can pay down any pre-existing past-due balance while keeping your service. Learn more at nvenergy.com/flexpay.
