PROPOSED RATE CHANGE

On February 27, 2020, NV Energy made its annual mandatory Deferred Energy Accounting Adjustment (DEAA) filing with the PUCN. The filing requests approval of the natural gas expenses for the 12-month period ended December 31, 2019, and to transfer any remaining balance in the Renewable Energy Program Rate regulatory asset at the end of the amortization period to the appropriate deferred energy balance.

The chart below contains a list of customer classes and their associated proposed percentage and dollar amount changes. These rate changes are approximate and represent averages for each customer class. Actual changes to individual customers’ bills will vary. Ultimately the PUCN may set rates that are higher or lower than those requested by the company.

The company’s application is available for review online at [nvenergy.com/ rates](http://nvenergy.com/rates) and pucn.nv.gov,.

Interested persons who are unable to participate may send comments in writing.
