### PROPOSED RATE CHANGE

On March 1, 2022, the Companies made their first ESAP Plan regulatory asset filing with the PUCN. This filing seeks approval for the cost recovery of the 2021 ESAP regulatory asset account and to set an Expanded Solar Program Cost Rate ("ESPC") for Nevada Power and Sierra Customers, calculate the Expanded Solar Discount Rate ("ESDR") on a quarterly basis; and include the Mojave community based solar resource in the Expanded Solar Energy Rate ("ESER") for Nevada Power customers.

The effect of granting this application will be to increase overall revenue of Nevada Power Company by \$233,665 or 0.01 percent over all rate classes and to increase overall revenue of Sierra by \$112,174 or 0.01 percent over all rate classes.

Ultimately the PUCN may set rates that are higher or lower than those requested by the Companies.

The application is available for public viewing at the Commission's website: <https://puc.nv.gov> or at the offices of the Commission as noted.
