### PROPOSED RATE CHANGE

On March 1, 2023, the Companies made their annual NDPP regulatory asset filing with the PUCN. The filing seeks recovery of the 2022 NDPP regulatory asset account and the authority to reset NDPP rate.

The effect of granting this application will be to decrease overall revenue of Nevada Power Company by \$9,762,346 or 0.31 percent over all rate classes and to decrease overall revenue of Sierra Pacific Power Company by \$4,027,755 or 0.34 percent over all rate classes.

Ultimately the PUCN may set rates that are higher or lower than those requested by the Companies.

The application is available for public viewing at the Commission’s website: <https://puc.nv.gov> or at the offices of the Commission as noted.

In this docket NV Energy is proposing to establish the following NDPP charge for all of NV Energy’s customers:

### PRESENT AND PROPOSED NDPP RATES
