

WINTER 2024

From lifelines to the front lines
to the sidelines, we know there's
a lot on the line. That's why
we're always there to power it.

This is what we do

nvenergy.com/whatwedo

DIY Energy Services

Our website and mobile app are filled with self-service options that make it easy for you to manage your NV Energy account from anywhere, 24/7. View and pay your bill, sign up for important alerts, and monitor your energy usage from MyAccount. Or, sign up for one of our payment programs like Equal Pay or FlexPay to help manage your bill. Moving? You can start, stop and transfer service with the push of a button. Visit nvenergy.com to get started.

PowerShift Smart Shop

The PowerShift Smart Shop is your one-stop destination for a brighter and greener home. Discover a curated selection of energy-saving household products that not only enhance your daily life but also reduce your carbon footprint. From efficient LED lighting to smart thermostats and eco-friendly appliances. Check out the many products that offer instant rebates and make a positive impact on both your wallet and the environment. Let's shift toward a smarter, more sustainable future, one product at a time. Shop now and start saving while you save the planet! Visit nvenergy.com/smartshop to get started.

Clear Up

New, efficient air purifiers capture allergens within large and small spaces.

Plug In

Save on advanced power strips that prolong the life of your electronics and save energy.

Green Cross (Life Support Equipment)

If any members of your household depend on electronically operated medical equipment, call us to enroll in the Green Cross program. While this won't prevent outages, it will help us better prioritize restoration efforts should the power go out unexpectedly. Visit nvenergy.com/greencross to learn more, and call customer service to request your enrollment packet.

Time-of-Use Updates

Effective January 1, 2024, changes have been made to southern Nevada time-of-use (TOU) periods. TOU rates help you take control of your energy usage to lower your bill by avoiding peak demand periods and taking advantage of lower-cost off-peak periods. Visit nvenergy.com/tou to see the updated southern Nevada schedules or to learn more about the program and how it can help you save money on your bill.

Changes to the northern Nevada TOU periods went into effect June 1, 2023.
