PROPOSED RATE CHANGE

On, February 28, 2025, the Companies made their annual NDPP regulatory asset filing with the PUCN. The filing seeks recovery of the 2024 NDPP regulatory asset account and the authority to reset NDPP rates.

The effect of granting this application will be to decrease overall revenue of Nevada Power Company by \$35,796,955 or 1.50% across all rate classes and to increase overall revenue of Sierra Pacific Power Company by \$21,831,740 or 2.20% across all rate classes.

Ultimately the PUCN may set rates that are higher or lower than those requested by the Companies.
