

FIRST AMENDMENT TO THE 2024 INTEGRATED RESOURCE PLAN CONSUMER SESSION

Nevada Power Company d/b/a NV Energy and Sierra Pacific Power Company d/b/a NV Energy (collectively, "NV Energy") have scheduled a Consumer Session to receive public input on their integrated resource planning. The First Amendment to the approved 2024 Integrated Resource Plan is narrowly tailored to seek an addition of an approximately 150 megawatt battery energy storage system that will reduce NV Energy's open position beginning in the summer of 2027. The battery will be co-located with the existing Dodge Flat solar and battery facility in Washoe County, Nevada. NV Energy will seek approval to enter into a power purchase agreement with the developer of the battery energy storage system.

The Consumer Session is an opportunity for NV Energy to receive public input on its anticipated proposal, including the underlying data inputs and assumptions, and plan development. This consumer session is being conducted by NV Energy and is not a Public Utilities Commission of Nevada-sponsored proceeding.

The Consumer Session is set as follows:
