

The sun works for you, too.

Enrollment is open for our Expanded Solar Access Program (ESAP). Through ESAP, income-qualified customers can get access to solar energy at a guaranteed lower rate without the need to install solar panels. ESAP participants are currently saving more than 9 percent on the cost of their electric use. Visit nvenergy.com/esap to learn more and apply by November 30.

Free Pool Pump Winterizations

Make sure you're getting the most savings possible by having your pool pump calibrated for FREE!

- An approved pool professional will calibrate your qualified, variable speed pool pump to circulate water at an appropriate speed based on the size of your pool.
- The proper calibration of the high- and low-speed settings will save you energy and money.

Winterization calibration eligibility:

- Resident must be an NV Energy customer.
- The qualified, variable speed pool pump must be installed on a single-family residential in-ground swimming pool.
- Pool pump is eligible for one winterization calibration per year and must be installed for a minimum of 12 months prior.

Visit nvenergy.com/poolpump for full eligibility requirements. Offer is available through Nov. 15, 2025.

GET THE DIRT BEFORE YOU DIG. CALL 811.

811 is the official nationwide phone number to call before you dig to locate underground utility lines, including gas pipelines and electric lines. It's free, required by law, and can help prevent damage and possible injury.

Don't make risky assumptions about whether to call and have utility lines marked before starting your digging project – whether it be planting a tree or beginning a large home improvement project. Learn more about 811 at nvenergy.com/call811.

Green Cross

If any members of your household depend on electronically operated medical equipment, call us to enroll in the Green Cross program. While this won't prevent outages, it will help us better prioritize restoration efforts should the power go out unexpectedly. Visit nvenergy.com/greencross to learn more, and call customer service to request your enrollment packet.

Stay Informed

NV Energy offers alerts and notifications so you can stay informed of what's happening with your account and any outages that may impact you. You can customize the types of alerts you receive and how you receive them – whether by voicemail, text message, and/or email. Log on to MyAccount and visit the Profile & Preferences section to update your contact information and preferences to receive updates on your account balance, planned and unplanned outage information, payment confirmation, and more.
