WINTER 2026

Stay Vigilant To Avoid Scams

NV Energy reminds customers to stay vigilant and be on the lookout for scams. Common practices include web searches that yield fake websites and contact information. Scammers trick customers into sharing their personal information under the guise of setting up service or making payments to NV Energy. They then use that information to contact NV Energy, pretending to be the customer and accessing sensitive customer information. Visit [nvenergy.com/news](https://www.nvenergy.com/news) to read about some of the latest scam tactics and how you can safeguard your information.

Third Party Notification

To help prevent disconnects, we'll notify the friend, relative or agency of your choice when your service is in jeopardy because of an unpaid bill, so they can help provide you with a friendly reminder or other assistance. Your designated third party is not responsible for payment of your bill but will receive a copy of the disconnect notice and can help you take the necessary action. Visit [nvenergy.com/assistance](https://www.nvenergy.com/assistance) for more information.

**SAVE
ENERGY
SAVE
MONEY**

Join more than 122,000 Nevada households already saving energy and money with an in home energy assessment and FREE smart thermostat installation. When you schedule your assessment, PowerShift energy advisors will provide expert, personalized tips to boost your home's energy efficiency. Plus, they'll install up to four FREE smart thermostats, easy to control from the wall or your smartphone, so you can manage your home's temperature anytime, anywhere.

Take control of your energy use today! Schedule online at [nvenergy.com/assessment](https://www.nvenergy.com/assessment) or call 855 676 9373.

NV Energy Stays Power Safe

This winter, we remind you that safety is a year-round priority. Through our Power Safe NV program, NV Energy continues to invest in wildfire prevention and winter storm preparedness to protect lives, property, and the reliability of electric service. This year, NV Energy completed targeted vegetation management and rebuilt overhead lines in high-risk areas, improving system resilience for both wildfire and winter storm conditions. Visit [nvenergy.com/powersafe](https://www.nvenergy.com/powersafe) to learn more.

Even with these improvements, outages can still occur during extreme weather. NV Energy encourages customers to prepare for potential outages caused by extreme weather. Customers can find more information and resources at [nvenergy.com/outageprep](https://www.nvenergy.com/outageprep).

Powerful Partnership Scholarship Program

At NV Energy, we are committed to building strong, healthy, and diverse communities, and we believe that a strong community has an educated and productive workforce. To support attainment of higher education for our youth, the NV Energy Foundation offers its Powerful Partnership Scholarship Program.

One-time scholarships of \$1,000 or more are awarded based on the program's selection criteria and on the number of applications received. It may be used at any Nevada accredited university, college, or trade school. Visit [nvenergy.com/scholarships](https://www.nvenergy.com/scholarships) for application details.
