

Do you or a member of
your household depend
on electrically-operated
medical equipment?

Enroll in **Green Cross** by calling:

Northern Nevada
(775) 834-4444

Southern Nevada
(702) 402-5555

This will ensure you receive advance notification of planned service outages. And, in case of an unexpected outage, we can take the necessary steps to better prioritize restoration for our known vulnerable customers.

Because outages are sometimes unexpected and/or beyond our control, we ask customers who rely on life-support devices to protect themselves against occasional interruptions of service by having an alternate power supply. See our information on outage preparedness and generator safety at **nvenergy.com/safety**.
