

NORTHERN NEVADA RESULTS - FINAL

Organization

Amount

Veterans Guest House

\$10,000

Our program is simple, we provide safe, supportive, overnight lodging to veterans and their families while they are receiving treatment and medical care. Our guests are asked to make a donation of \$25/night or whatever amount they are able. However, no one is turned away for an inability to pay. The funding from the NV Energy Power of Good Campaign will underwrite up to 400 guest nights of lodging for veterans. Together, we will remove the burden of lodging from their shoulders and provide veterans and their families with a home away from home.

Assistance League Reno-Sparks

\$3,000

Funds will support one of our 12 Philanthropic programs is Veteran's Outreach. We provide bus passes to veterans who need transportation to doctor's appointments at the VA Hospital, and we purchase items for veterans who are setting up new apartments. These items could include microwaves, dishes, pots and pans, bedding, alarm clocks, towels, etc. In addition, we also provide warm coats during the fall drive for veterans.

TMCC Veterans Resource Center

\$2,000

The mission of the Truckee Meadows Community College (TMCC) Veterans Resource Center (VRC) is to assist student veterans in their successful transition from military service to the academic environment. Through this mission the TMCC VRC is constantly identifying areas of need for our student veterans. Two of the largest needs that are encountered on a daily basis are the increasing costs of books and supplies as well the cost of transportation to get to and from school. The funds received from this great initiative will grant book stipends and bus passes to our student veteran population in need.
