

Attention northern Nevada net metering customers:

As of December 22, 2016 all current residential and small commercial net metering customers in NV Energy's northern Nevada service territory are part of the newly created NMR-G rate class for grandfathered rules and rates. Additionally, the PUCN ordered that an additional 6 MW of private rooftop solar in northern Nevada be eligible for the NMR-G rate class.

This bill insert lists rates effective October 1, 2017 for non-grandfathered residential and small commercial net metering customers, but currently does not apply to any customers.

For your current net metering rates, please refer to the bill insert **Northern NV Electric Residential Rate Schedule**. Please call Customer Service at **(855) 227-5686** for additional assistance.
