(N)

TERRITORY

Entire Nevada Service Area.

RATES

The rate is applicable to lamps mounted on suitable poles supplied from overhead or underground supply circuits, which may also be used to carry Utility's distribution system circuits. Lighting equipment will be installed, operated and maintained by Utility. Lighting equipment installed shall be as specified by Utility as to type of bracket, lamp fixture and overhead or under-ground supply circuits. Service includes energy, lamp and glass replacements and operation and maintenance of the installation.

The rates for customer-owned installations are applicable to service where the lighting equipment (including suitable circuits and terminals for connection to Utility's overhead system) is installed and owned by the Customer. Service non-metered installations includes energy, lamp and glass replacements and operation of the installation, but does not include maintenance or replacement of Customer-owned equipment other than lamps and glasses. Service to metered installations is for maintenance and lamp and glass replacement only. Customer is responsible for providing replacement lamps and glass not normally stocked by Utility. Maintenance and non-metered energy service to customer-owned lamps are closed to new service.
