**Time–Of–Use Guarantee**

At the conclusion of the first year of service under TOU rates (ORS–TOU, ORM–TOU or ORLS–TOU), the company will compare (a) the total actually paid by the residential customer for consumption (i.e. for the metered quantity of kilowatt-hours [kWh] used by the customer) with (b) the amount that would have been paid for the same level of consumption under the otherwise applicable standard residential rate schedule. If the amount paid by the residential customer is higher than the amount that would have been paid under the otherwise applicable residential rate per kWh, the utility will credit the difference to the customer’s account and request that the customer inform the utility if they want to terminate Optional TOU service.

Visit mynenergy.com to see how you can save energy by using these rates.
