

LEARN While You Earn

AS A PRE-APPRENTICE WITH NV ENERGY

NV Energy is looking for qualified individuals to join one of the premier energy companies in the West as a Pre-Apprentice.

Our pre-apprenticeship programs combine extensive on-the-job training with some classroom instruction. The programs were created and are offered in cooperation with IBEW Local 396 with the intent of providing entry level opportunities for those with an aptitude for the work, but not necessarily the experience. We offer pre-apprenticeship programs in the lines, substation, and metering divisions. These are paid positions and you earn while you learn a trade.

NV Energy provides electricity to 1.4 million customers throughout Nevada as well as a state tourist population exceeding 50 million annually. We are interested in recruiting locally and providing opportunities to our community including recent high school graduates looking for a great career within their Nevada community.

Qualifying for Our Programs and How to Apply

In order to be considered for our pre-apprenticeship programs, candidates must complete the ACT WorkKeys assessments before the advertised job opening has closed. The required assessments and scores, as well as how to schedule an assessment, can be found on nvenergy.com under the careers section.

For more information, go to:

nvenergy.com/about-nvenergy/careers/apprenticeships

Our commitment to building a stronger energy future is matched by our commitment to our employees who will make it a reality. We equip employees with the resources and support they need to be successful. We encourage teamwork and provide a safe, rewarding work environment.

**COMMITMENT TO
EXCELLENCE**
