The clean energy programs are the renewable energy (solar, solar thermal, wind, and hydro), energy storage, and electric vehicle charging station incentives programs administered by NV Energy under the laws of the Nevada Legislature and regulated by the Public Utilities Commission of Nevada.

Solar PV

Program Update

The solar incentives program is fully subscribed. In April, six incentive applications were closed out.

The following definitions apply to all Program Update pages:

Incentives Paid program dollars are a sum from completed solar incentive applications plus performance-based incentives (PBI) payments paid to date.

Completed kW capacity is a sum from completed solar incentive applications plus PBI projects that have interconnected.

Completed Applications include applications where the system has interconnected, the check issued and mailed, and all administrative tasks completed to close out the application in the online application portal plus PBI projects that have interconnected.

Low Income Solar Energy Program (LISEP)

Program Update

In April, LISEP received zero applications and were zero application closed out.

The following definitions apply to all Program Summary Monthly Detail pages:

Incentives Paid program dollars are from completed incentive applications plus performance-based incentives (PBI) paid to date.

Incentives Reserved are the maximum approved program dollars reserved for applications that have received a Reservation Notice and have not been closed out, plus the balance between approved PBI program dollars reserved and paid to date.

Incentives Available program dollars have not yet been reserved or paid out. This also includes Solar PV program dollars from applications, which were submitted but not reserved prior to the program becoming fully subscribed.

Newly Available program dollars are the difference between the maximum reserved incentive amount and the actual incentive amount paid from completed applications or ineligible applications.

Incentives Attrition program dollars are previously reserved funds, from approved applications that received a Reservation Notice, until the application progressed into a Cancelled, Withdrawn, or Forfeited status, as defined by NRS code 701B.255.

All Program Review pages detail program spending to date toward \$295,270,000 incentive cap.
