	Solar PV	Energy Storage	Total
<b>Total</b>	<b>\$2,017,114</b>	<b>\$163,977</b>	<b>\$2,181,091</b>

## Renewable Energy Generating Systems Capacity Completed Since July 1, 2010 and Reserved

Solar PV, LISEP, Wind, and Hydro Programs Capacity Summary			
	Capacity (kW)	Capacity (kW)	Capacity (kW)
	Completed	Reserved	Total
Solar PV	312,205	59	312,264
LISEP	1,641	1,192	2,834
Wind	10,003	0	10,003
Hydro	1,346	0	1,346
<b>Total</b>	<b>325,196</b>	<b>1,251</b>	<b>326,447</b>

The following definitions apply to all Program Summary Monthly Detail pages:

**Incentives Paid** program dollars are from completed incentive applications plus performance-based incentives (PBI) paid to date.

**Incentives Reserved** are the maximum approved program dollars reserved for applications that have received a Reservation Notice and have not been closed out, plus the balance between approved PBI program dollars reserved and paid to date.

**Incentives Available** program dollars have not yet been reserved or paid out. This also includes Solar PV program dollars from applications, which were submitted but not reserved prior to the program becoming fully subscribed.

**Newly Available** program dollars are the difference between the maximum reserved incentive amount and the actual incentive amount paid from completed applications or ineligible applications.

**Incentives Attrition** program dollars are previously reserved funds, from approved applications that received a Reservation Notice, until the application progressed into a Cancelled, Withdrawn, or Forfeited status, as defined by NRS code 701B.255.

All Program Review pages detail program spending to date toward \$295,270,000 incentive cap.

# Solar PV

## Program Summary Monthly Detail

In August, \$74,142 was paid out and \$0 was reserved. There was \$0 of attrition made available to LISEP. There was \$9,387 of newly available funds made available to the energy storage incentives program.

Beginning August Balance								
	Incentives Paid		Incentives Reserved		Incentives Available			
	North	South	North	South				
Residential/Small Business	\$6,231,617	\$52,547,865	\$0	\$56,043

# Legislation, Regulation, and Compliance

For the second phase of the Nevada Electric Highway, NV Energy received extensions for two sites located at Rye Patch State park and Las Vegas Speedway from the Nevada Governor's office of energy. The new completion deadline for Motel 6 site located at the Las Vegas Speedway is October 31, 2021. NV Energy anticipates completing this site by mid-September 2021. The new construction deadline for Rye Patch site is November 30, 2021.

The table below shows the status of all the Nevada Electric Highway Sites:

Site # on GOE Map	Highway	Site Location	Status
1	I-15	Jean	Completed
2	I-15	I-15 / U.S. 93 Jct	Construction
6	I-80	I-80 / U.S. 95 Jct	Site Selection
17	U.S. 95	Schurz	Completed
18a	U.S. 95	Luning	Completed
19	U.S. 95	Coaldale	Removed
20	U.S. 95	Goldfield	Completed
7	I-80	Lovelock	Removed
8	I-80	Rye Patch	Procurement
10	I-80	Valmy	Removed
24	U.S. 50	Silver Springs	Closeout
25	U.S. 50	Middlegate	Closeout
26	U.S. 50	Cold Springs	Completed
27	U.S. 50	Austin	Completed

## Monthly Report Modifications

Continual data reconciliation of the application portal data and decimal rounding will result in marginal variances between reports and any significant variances will be explained.

### On Page 3, Solar PV Program Update page

Inception to Date table - Incentives Paid North Low Income is \$442,766 lower due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds. The corresponding project count and kW capacity has also decreased accordingly.

Inception to Date table - Incentives Paid South Low Income is \$854,331 lower due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds. The corresponding project count and kW capacity has also decreased accordingly.

### On Page 4, Low Income Solar Energy Program (LISEP) Program Update page

Inception to Date table - Incentives Paid North Low Income is \$442,766 higher due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds as directed by NVE. The corresponding project count and kW capacity has also increased accordingly.

Inception to Date table - Incentives Paid South Low Income is \$854,331 higher due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds. The corresponding project count and kW capacity has also increased accordingly.

#### **On Page 10, Clean Energy Programs Summary page**

Incentives Summary table - Solar PV Incentives Paid and Incentives Total are \$1,297,097 lower due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds. The corresponding completed and reserved kW capacity has also decreased accordingly in the Completed Capacity table.

Incentives Summary table - LISEP Incentives Paid and Incentives Total are \$1,297,097 higher due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds. The corresponding completed and reserved kW capacity has also decreased accordingly in the Completed Capacity table.

#### **On Page 11, Solar PV Monthly Detail page**

Beginning Balance table - Incentives Paid North Low Income is \$442,766 lower due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds.

Beginning Balance table - Incentives Paid South Low Income is \$854,331 lower due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds.

#### **On Page 12, Low Income Solar Program (LISEP) Monthly Detail page**

Beginning Balance table - Incentives Paid North Low Income is \$442,766 higher due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds.

Beginning Balance table - Incentives Paid South Low Income is \$854,331 higher due to:

- LISEP Phase 3 projects, submitted prior to July 1, 2018 but paid in calendar year 2018, are now being counted as part of the SB145 LISEP program funds.

#### **On Page 14, Electric Vehicle Charging Station Monthly Detail page**

Beginning Balance table - Incentives Reserved South Workplace is \$24,000 higher due to:

-EV-00011 was previously cancelled on 6/1/2021 and was reinstated on 8/27/2021.

Beginning Balance table - Incentives Reserved South Fleet is \$68,313 lower due to:

-EV-00136 was initially approved on 6/24/2021, but the reservation was inactivated, and the project put into corrections on 8/13/2021. A new reservation was issued on 8/24/2021, after corrections were submitted.

#### **The following are not discrepancies, but explanations:**

-LISEP shows \$126,721 in attrition. This is due to 1 project being withdrawn and 3 projects being forfeited.

-EV Nevada Electric Highway shows a total of \$225, 089 in newly available funds due to a portion of reserved funds being released from several projects.

# Workshops, Meetings, and Events

The clean energy programs staff held the following event(s) where they handed out brochures and/or answered questions from the attendees:

- There were no workshops, meetings, or events in August.
