The clean energy programs are the renewable energy (solar, solar thermal, wind, and hydro), energy storage, and electric vehicle charging station incentives programs administered by NV Energy under the laws of the Nevada Legislature and regulated by the Public Utilities Commission of Nevada.

Solar PV

Program Update

The solar incentives program is fully subscribed. In July, one application was closed out.

2020	\$4.46	\$2.90		
2021	\$4.24	\$0.00		

Solar PV / LISEP Incentives Capacity Installed by Month (kW) chart represents interconnected incentivized capacity, which are applications that have received permission to operate, by the month they were interconnected. The Solar Incentives Applications Completed Capacity by Month (kW) chart, which represented total interconnected 5 incentivized capacity only after administrative tasks have been completed to close out an application, has been removed.

Solar Thermal Heating (Northern Nevada Gas Customers)

Program Update

In July, the solar thermal heating incentives program received zero applications and zero applications were closed out.

Hydro	1,346	0	1,346				
Total	325,196	1,281	326,477				

The following definitions apply to all Program Summary Monthly Detail pages:

Incentives Paid program dollars are from completed incentive applications plus performance-based incentives (PBI) paid to date.

Incentives Reserved are the maximum approved program dollars reserved for applications that have received a Reservation Notice and have not been closed out, plus the balance between approved PBI program dollars reserved and paid to date.

Incentives Available program dollars have not yet been reserved or paid out. This also includes Solar PV program dollars from applications, which were submitted but not reserved prior to the program becoming fully subscribed.

Newly Available program dollars are the difference between the maximum reserved incentive amount and the actual incentive amount paid from completed applications or ineligible applications.

Incentives Attrition program dollars are previously reserved funds, from approved applications that received a Reservation Notice, until the application progressed into a Cancelled, Withdrawn, or Forfeited status, as defined by NRS code 701B.255.

All Program Review pages detail program spending to date toward \$295,270,000 incentive cap.

Program Summary Monthly Detail

In July, \$5,833 was paid out and \$0 was reserved. There was \$0 of attrition made available to LISEP. There was \$0 of newly available funds made available to the energy storage incentives program.

Beginning July Balance					
	Incentives Paid		Incentives	Reserved	Incentives Available

NV Energy officially began accepting incentive applications for the new program year on July 12, 2021. Some of the noteworthy changes to the electric vehicle program includes addition of a residential charging electric vehicle program and allowing for assigned parking spaces for multi-family incentive category. In the large energy storage program, the maximum incentives caps were increased for critical and non-critical infrastructures not eligible to receive investment tax credits ("ITC") to \$400,000 and \$500,000 respectively.

LISEP VII launched on July 22, 2021 and received 8 applications totaling 765.211 kW in potential reservations. The applications will remain open for 1 year.

The table below shows the status of all the Nevada Electric Highway Sites:

Site # on GOE Map	Highway	Site Location	Status
1	I-15	Jean	Completed
2	I-15	I-15 / U.S. 93 Jct	Construction
6	I-80	I-80 / U.S. 95 Jct	Site Selection
17	U.S. 95	Schurz	Completed
18a	U.S. 95	Luning	Completed
19	U.S. 95	Coaldale	Removed
20	U.S. 95	Goldfield	Completed
7	I-80	Lovelock	Removed
8	I-80	Rye Patch	Procurement
10	I-80	Valmy	Removed
24	U.S. 50	Silver Springs	Closeout
25	U.S. 50	Middlegate	Closeout
26	U.S. 50	Cold Springs	Completed
27	U.S. 50	Austin	Completed

Monthly Report Modifications

Continual data reconciliation of the application portal data and decimal rounding will result in marginal variances between reports and any significant variances will be explained.

Incentives Reserved Beginning North Nevada Electric Highway is \$93,560 higher due to:

EV-00054 - Reservation increased by \$93,560, which was originally going to be paid by the GOE, but GOE reached its funding cap, so the incentive was taken from program funds.

Incentives Beginning Available is \$93,560 lower due to:

EV-00054 - Reservation increased by \$93,560, which was originally going to be paid by the GOE, but GOE reached its funding cap, so the incentive was taken from available program funds

The clean energy programs staff held the following event(s) where they handed out brochures and/or answered questions from the attendees:

There were no workshops, meetings, or events in July.
