# Low Income Solar Energy Program (LISEP)<sup>1</sup>

## Program Applications Update

In March, LISEP received zero applications and zero applications were closed out.

March						
	Incentives Paid		Completed Capacity (kW)		Completed Applications	
	North	South	North	South	North	South
Low Income Solar Energy Program	\$0	\$0	0	0	0	0

Calendar Year to Date						
	Incentives Paid		Completed Capacity (kW)		Completed Applications	
	North	South	North	South	North	South
Low Income Solar Energy Program	\$0	\$0	0	0	0	0

Inception (2018) to Present						
	Incentives Paid		Completed Capacity (kW)		Completed Applications	
	North	South	North	South	North	South
Low Income Solar Energy Program	\$1,062,461	\$2,285,365	600	1,453	41	22

<sup>1</sup> LISEP payments began March 1, 2018 and have an incentive cap of \$1 million per year, for up to six years, as designated in Senate Bill 145.

# Solar PV / LISEP

Solar PV / LISEP Incentives Capacity Installed by Month (kW)<sup>1</sup>

## Solar PV / LISEP Incentives Paid Since July 1, 2010

Spending Toward \$295,270,000 Cap		
	Incentives Paid	Completed kW
Total	\$243,787,800	314,263

## Average Solar PV / LISEP Incentives Installation Cost Per Watt AC-CEC

Cost Per Watt		
Year	UFI/EPBB	PBI
2021	\$4.23	\$0.00
2022	\$0.00	\$0.00

<sup>1</sup> **Solar PV / LISEP Incentives Capacity Installed by Month (kW)** chart represents interconnected incentivized capacity, which are applications that have received permission to operate, by the month they were interconnected. The **Solar Incentives Applications Completed Capacity by Month (kW)** chart, which represented total interconnected incentivized capacity only after administrative tasks have been completed to close out an application, has been removed.

# Solar Thermal Heating (Northern Nevada Gas Customers)

## Program Applications Update

In March, the solar thermal heating incentives program received zero applications and zero applications were closed out.

## Renewable Energy Generating Systems Capacity Completed Since July 1, 2010 and Reserved

Solar PV, LISEP, Wind, and Hydro Programs Capacity Summary			
	Capacity (kW) Completed	Capacity (kW) Reserved	Capacity (kW) Total
Solar PV	312,210	48	312,258
LISEP	2,053	1,137	3,190
Wind	10,005	0	10,005
Hydro	1,346	0	1,346
<b>Total</b>	<b>325,614</b>	<b>1,186</b>	<b>326,800</b>

<sup>1</sup> **Clean Energy Programs Incentive Applications Summary** table (originally named *Clean Energy Programs Incentive Summary*) excludes the portion of funds that are planned to be paid for by the Governor's Office of Energy (GOE) incentive funds.

<sup>2</sup> **Incentives Paid** are program dollars from applications that have been paid and the application closeout process completed, plus performance-based incentive payments recorded in the application system.

<sup>3</sup> **Incentives Reserved** are program dollars from applications that have an active Reservation and are either still active or the application closeout process has not yet been completed, plus the balance of what is left to pay for performance-based incentive projects.

<sup>4</sup> **Incentives Available** are program dollars that are not assigned as paid or reserved as defined in footnotes 2 and 3.

<sup>5</sup> **Incentives Total** are the total program dollars allotted for each program as of the end of the month.

<sup>6</sup> **Pending Activity** shows the variance between application system records and general ledger records (and vice versa). Any variances will be explained in the **Monthly Report Variances** section starting on page 17.

<sup>7</sup> **Clean Energy Programs Incentive Tracking Summary** table represents a summary of general ledger activity following generally accepted accounting principles (GAAP) and application activity that includes all current and pending liabilities (submitted, but not yet obligated funds).

<sup>8</sup> **Incentives Disbursements** are funds that have been vouchered according to the general ledger.

<sup>9</sup> **Incentive Liabilities** are funds that have been obligated for payment for projects issued a Reservation and are still active, plus the balance of what is obligated for performance-based incentive projects.

<sup>10</sup> **Incentive Availability** are currently unobligated funds.

<sup>11</sup> **Incentives Submitted** are funds for applications that have been submitted but not yet approved for an incentive reservation. This also includes applications that have received conditional reservations, which are reservations for payment only if funds become available for that program.

<sup>12</sup> **Remaining Availability** are unobligated funds available for new applications.

# Solar PV

## Program Applications Summary Monthly Detail

In March, \$44,195 was paid out and \$0 was reserved. There was \$1,069 of attrition and \$0 of newly available funds allocated to the energy storage incentives program.<sup>1</sup>

Beginning March Balance								
	Incentives Paid		Incentives Reserved		Incentives Available			
	North	South	North	South				
Residential/Small Business	\$6,228,199	\$52,546,189	\$0	\$45,047

# Legislation, Regulation, and Compliance

NV Energy conducted two electric vehicle (“EV”) events in March 2022: the EVs for Business virtual event and the Dealers Training Workshop in southern Nevada. The EVs for Business virtual event had 27 participants and was focused on opportunities for business owners to electrify their fleet. The Dealers Training Workshop was held in southern Nevada and was cohosted by the Nevada Franchised Auto Dealers Association. There were eight dealer partners that attended and were trained on EVs, charging infrastructure, NV Energy incentives and charging time-of-use rates. A presentation and associated collateral were provided.

Please find a table with status for different Nevada electric highway sites:

Site # on GOE Map	Highway	Site Location	Status
1	I-15	Jean	Completed
2	I-15	I-15 / U.S. 93 Jct	Completed
6	I-80	I-80 / U.S. 95 Jct	Removed
17	U.S. 95	Schurz	Completed
18a	U.S. 95	Luning	Completed
19	U.S. 95	Coaldale	Removed
20	U.S. 95	Goldfield	Completed
7	I-80	Lovelock	Removed
8	I-80	Rye Patch	Completed
10	I-80	Valmy	Removed
24	U.S. 50	Silver Springs	Completed
25	U.S. 50	Middlegate	Completed
26	U.S. 50	Cold Springs	Completed
27	U.S. 50	Austin	Completed

## Monthly Report Variances

Continual data reconciliation of the application portal data and decimal rounding will result in marginal variances between reports and any significant variances will be explained.

### On Page 11:

**There is \$404,776 of pending activity in incentive disbursements:**

- \$113,761 of LISEP disbursements are pending GOE reimbursement.
- \$80,000 of EV disbursements are pending GOE reimbursement.
- \$180,372 of EV disbursements are checks vouchered pending issuance.
- \$477 of Solar disbursements are checks vouchered pending issuance.
- \$30,166 of Storage disbursements are checks vouchered pending issuance.

**There is \$349,435 of pending activity in incentive liabilities:**

- \$303,238 of LISEP liabilities are reservations that will be reimbursed by GOE, if paid.
- \$46,197 of EV liabilities are reservations that will be reimbursed by GOE, if paid.

# Workshops, Meetings, and Events

The clean energy programs staff held the following event(s) where they handed out brochures and/or answered questions from the attendees:

- March 16, 2022 → EVs for Business (Virtual)
- March 18, 2022 → Dealers Training Workshop (Las Vegas)
