<sup>1</sup> The clean energy programs are the renewable energy (solar, solar thermal, wind, and hydro), energy storage, and electric vehicle charging station incentives programs administered by NV Energy under the laws of the Nevada Legislature and regulated by the Public Utilities Commission of Nevada.

# Solar PV

## Program Applications Update

The solar incentives program is fully subscribed. In May, six applications were closed out.

<sup>1</sup> **Clean Energy Programs Incentive Applications Summary** table (originally named Clean Energy Programs Incentive Summary) excludes the portion of funds that are planned to be paid for by the Governor's Office of Energy (GOE) incentive funds.

<sup>2</sup> **Incentives Paid** are program dollars from applications that have been paid and the application closeout process completed, plus performance-based incentive payments recorded in the application system.

<sup>3</sup> **Incentives Reserved** are program dollars from applications that have an active Reservation and are either still active or the application closeout process has not yet been completed, plus the balance of what is left to pay for performance-based incentive projects.

<sup>4</sup> **Incentives Available** are program dollars that are not assigned as paid or reserved as defined in footnotes 2 and 3.

<sup>5</sup> **Incentives Total** are the total program dollars allotted for each program as of the end of the month.

<sup>6</sup> **Pending Activity** shows the variance between application system records and general ledger records (and vice versa). Any variances will be explained in the **Monthly Report Variances** section starting on page 17.

<sup>7</sup> **Clean Energy Programs Incentive Tracking Summary** table represents a summary of general ledger activity following generally accepted accounting principles (GAAP) and application activity that includes all current and pending liabilities (submitted, but not yet obligated funds).

<sup>8</sup> **Incentives Disbursements** are funds that have been vouchered according to the general ledger.

<sup>9</sup> **Incentive Liabilities** are funds that have been obligated for payment for projects issued a Reservation and are still active, plus the balance of what is obligated for performance-based incentive projects.

<sup>10</sup> **Incentive Availability** are currently unobligated funds.

<sup>11</sup> **Incentives Submitted** are funds for applications that have been submitted but not yet approved for an incentive reservation. This also includes applications that have received conditional reservations, which are reservations for payment only if funds become available for that program.

<sup>12</sup> **Remaining Availability** are unobligated funds available for new applications.

# Solar PV

## Program Applications Summary Monthly Detail

In May, \$2,569 was paid out and \$0 was reserved. There was \$0 of attrition and \$22,333 of newly available funds allocated to the energy storage incentives program.<sup>1</sup>

Beginning May Balance								
	Incentives Paid		Incentives Reserved		Incentives Available			
	North	South	North	South

# Legislation, Regulation, and Compliance

On May 4, 2022, NV Energy hosted a table at the May Science Be with You event. Sponsored by the Desert Research Institute, the event brought the community opportunities to learn more about science through hands-on activities and meetings with scientists and technical personnel. NV Energy provided information on the clean energy programs.

On May 13, 2022, NV Energy hosted the second electric vehicle (“EV”) dealers engagement workshop in Reno, Nevada. Representatives from ten Reno EV dealers attended the workshop.

On May 14, 2022, NV Energy hosted an EV Ride and Drive event at San Raphael Park in Reno, Nevada. Customers had the opportunity to experience driving an electric vehicle, touch base with the newest models in the market, and learn about incentives available for the purchase of EVs and charging stations. 107 people performed the test drive and 200 people attended the event.

On May 19, 2022, NV Energy hosted the EV Basics webinar. The webinar provided an overview on electric vehicles characteristics to support customers when choosing and purchasing an EV. The webinar also introduced incentives available through the Clean Energy Program for installation of residential EV chargers and rebates for lower income customers to purchase a new or used EV.

Please find a table with status for different Nevada electric highway sites:

Site # on GOE Map	Highway	Site Location	Status
1	I-15	Jean	Completed
2	I-15	I-15 / U.S. 93 Jct	Completed
6	I-80	I-80 / U.S. 95 Jct	Removed
17	U.S. 95	Schurz	Completed
18a	U.S. 95	Luning	Completed
19	U.S. 95	Coaldale	Removed
20	U.S. 95	Goldfield	Completed
7	I-80	Lovelock	Removed
8	I-80	Rye Patch	Completed
10	I-80	Valmy	Removed
24	U.S. 50	Silver Springs	Completed
25	U.S. 50	Middlegate	Completed
26	U.S. 50	Cold Springs	Completed
27	U.S. 50	Austin	Completed

## Monthly Report Variances

Continual data reconciliation of the application portal data and decimal rounding will result in marginal variances between reports and any significant variances will be explained.

### On Page 3:

**Calendar Year to Date and Inception to Present Incentives Paid North Residential is \$1,524 lower due to:**

- Previously vouchered payment was returned and funds moved to reserved status until the new payment has been reissued.

### On Page 8:

**Beginning Incentives Paid South Residential is \$4,065 lower due to:**

- Previously vouchered payments have been returned and funds moved to reserved status until the new payments have been vouchered.

**On Page 11:****There is \$209,534 of pending activity in incentive disbursements:**

- \$115,487 of LISEP disbursements are pending GOE reimbursement.
- \$92,547 of EV disbursements are pending GOE reimbursement.
- \$1,500 of Storage disbursements are due to a payment reissue.

**There is \$335,515 of pending activity in incentive liabilities:**

- \$302,533 of LISEP liabilities are reservations that will be reimbursed by GOE, if paid.
- \$32,982 of EV liabilities are reservations that will be reimbursed by GOE, if paid.

**On Page 12:****Beginning Incentives Paid North Large Commercial is \$1,524 lower and Beginning Incentives Reserved North Large Commercial is \$1,524 higher due to:**

- Previously vouchered payment was returned and funds moved to reserved status until the new payment has been reissued.

**On Page 14:****Beginning Incentives Paid South Residential is \$4,065 lower due to:**

- Previously vouchered payments have been returned and funds moved to reserved status until the new payments have been vouchered.

## Workshops, Meetings, and Events

The clean energy programs staff held the following event(s) where they handed out brochures and/or answered questions from the attendees:

- May 4, 2022 → May Science Be with You event; Las Vegas, Nevada
- May 13, 2022 → EV Dealers Engagement Workshop; Reno, Nevada
- May 14, 2022 → EV Ride and Drive event; Reno, Nevada
- May 19, 2022 → EV Basics webinar; Online
