The clean energy programs are the renewable energy (solar, solar thermal, wind, and hydro), energy storage, and electric vehicle charging station incentives programs administered by NV Energy under the laws of the Nevada Legislature and regulated by the Public Utilities Commission of Nevada.

Solar PV

Program Update

The solar incentives program is fully subscribed. In November, zero applications were closed out.

Hydro	1,346	0	1,346				
Total	325,358	1,130	326,487				

The following definitions apply to all Program Summary Monthly Detail pages:

Incentives Paid program dollars are from completed incentive applications plus performance-based incentives (PBI) paid to date.

Incentives Reserved are the maximum approved program dollars reserved for applications that have received a Reservation Notice and have not been closed out, plus the balance between approved PBI program dollars reserved and paid to date.

Incentives Available program dollars have not yet been reserved or paid out. This also includes Solar PV program dollars from applications, which were submitted but not reserved prior to the program becoming fully subscribed.

Newly Available program dollars are the difference between the maximum reserved incentive amount and the actual incentive amount paid from completed applications or ineligible applications.

Incentives Attrition program dollars are previously reserved funds, from approved applications that received a Reservation Notice, until the application progressed into a Cancelled, Withdrawn, or Forfeited status, as defined by NRS code 701B.255.

Program Summary Monthly Detail

In November, \$68,245 was paid out and \$0 was reserved. There was \$0 of attrition made available to LISEP. There was \$0 of newly available funds made available to the energy storage incentives program.

Beginning November Balance					
	Incentives Paid		Incentives	Reserved	Incentives Available

NV Energy continues to provide technical assistance to commercial and industrial customers interested in installing energy storage systems at their facilities. As a result, two applications were received for the large energy storage program.

For the second phase of the Nevada electric highway, the construction at the Rye Patch state park has been completed, equipment has been commissioned and is in the closeout phase. Once complete, this will conclude the Nevada electric highway project. The table below shows the status of all the Nevada Electric Highway sites:

Site # on GOE Map	Highway	Site Location	Status
1	I-15	Jean	Completed
2	I-15	I-15 / U.S. 93 Jct	Completed
6	I-80	I-80 / U.S. 95 Jct	Removed
17	U.S. 95	Schurz	Completed
18a	U.S. 95	Luning	Completed
19	U.S. 95	Coaldale	Removed
20	U.S. 95	Goldfield	Completed
7	I-80	Lovelock	Removed
8	I-80	Rye Patch	Closeout
10	I-80	Valmy	Removed
24	U.S. 50	Silver Springs	Completed
25	U.S. 50	Middlegate	Completed
26	U.S. 50	Cold Springs	Completed
27	U.S. 50	Austin	Completed

Monthly Report Modifications

Continual data reconciliation of the application portal data and decimal rounding will result in marginal variances between reports and any significant variances will be explained.

NV Energy is nearing the end of funding the \$295,270,000, authorized July 1, 2010, that was directed to renewable energy, energy storage and electric vehicle infrastructure development programs. With NV Energy's 2022 Annual Clean Energy Plan report due to the Commission on or before February 1, 2022; the Companies anticipate that less than three percent of budget will remain. NV Energy has updated reporting to align with the general ledger as opposed to PowerClerk. NV Energy can more discretely track expenditures using the general ledger. PowerClerk is an application tracking system and does not follow generally accepted accounting principles. Through 2021 year-end NV Energy will provide minor adjustments and updates to previous program year expenditures to align with the general ledger.

On Page 3:

Beginning Solar Incentives Paid North Residential increased by \$722 to match actual GL payments.

Beginning Solar Incentives Paid North School decreased by \$7,079 to match actual GL payments.

Beginning Solar Incentives Paid North Public Entity increased by \$3,791 to match actual GL payments.

Beginning Solar Incentives Paid South Residential decreased by \$18,369 to match actual GL payments.

Beginning Solar Incentives Paid South Low-Income/Non-Profit increased by \$3,921 to match actual GL payments.
