The clean energy programs are the renewable energy (solar, solar thermal, wind, and hydro), energy storage, and electric vehicle charging station incentives programs administered by NV Energy under the laws of the Nevada Legislature and regulated by the Public Utilities Commission of Nevada.

Solar PV

Program Update

The solar incentives program is fully subscribed. In November, 235 incentive applications were closed out.

November						
	Incentives Paid		Completed kW		Completed Applications	
	North	South	North	South	North	South

The following definitions apply to all Program Update pages:

Incentives Paid program dollars are a sum from completed solar incentive applications plus performance-based incentives (PBI) payments paid to date.

Completed kW capacity is a sum from completed solar incentive applications plus PBI projects that have interconnected.

Completed Applications include applications where the system has interconnected, the check issued and mailed, and all administrative tasks completed to close out the application in the online application portal plus PBI projects that have interconnected.

Low Income Solar Energy Program (LISEP)

Program Update

In November, LISEP received no applications and there were no applications closed out.

November						
	Incentives Paid		Completed Capacity (kW)		Completed Applications	
	North	South	North	South	North	South
Low-Income/Nonprofit	\$0	\$0	0	0	0	0

Calendar Year to Date						
	Incentives Paid		Completed Capacity (kW)		Completed Applications	
	North	South	North	South	North	South
Low-Income/Nonprofit	\$0	\$0	0	0	0	0

Inception (2018) to Present						
	Incentives Paid		Completed Capacity (kW)		Completed Applications	
	North	South	North	South	North	South
Low-Income/Nonprofit	\$0	\$0	0	0	0	0

LISEP began accepting applications on July 1, 2018 and have an incentive cap of \$1 million per year, for up to six years, as designated in Senate Bill 145.

Solar PV / LISEP

Solar PV / LISEP Incentives Capacity Installed by Month (kW)

Solar PV / LISEP Incentives Paid Since July 1, 2010

Spending Toward \$295,270,000 Cap		
	Incentives Paid	Completed kW
Total	\$236,977,145	288,831

Average Solar PV / LISEP Incentives Installation Cost Per Watt AC-CEC

Cost Per Watt		
Year	UFI/EPBB	PBI
2018	\$4.12	\$2.91
2019	\$3.91	\$3.75

Solar PV / LISEP Incentives Capacity Installed by Month (kW) chart represents interconnected incentivized capacity, which are applications that have received permission to operate, by the month they were interconnected. The Solar Incentives Applications Completed Capacity by Month (kW) chart, which represented total interconnected incentivized capacity only after administrative tasks have been completed to close out an application, has been removed.

Solar Thermal Heating (Northern Nevada Gas Customers)

Program Update

In November, the solar thermal heating incentives program received no applications and there were no applications closed out.

Wind	10,003	0	10,003
Hydro	1,345	0	1,345
Total	300,179	32,158	332,337

The following definitions apply to all Program Summary Monthly Detail pages:

Incentives Paid program dollars are from completed incentive applications plus performance-based incentives (PBI) paid to date.

Incentives Reserved are the maximum approved program dollars reserved for applications that have received a Reservation Notice and have not been closed out, plus the balance between approved PBI program dollars reserved and paid to date.

Incentives Available program dollars have not yet been reserved or paid out.

Newly Available program dollars are the difference between the maximum reserved incentive amount and the actual incentive amount paid from completed applications. This also includes Solar PV program dollars from ineligible applications, which were submitted but not reserved prior to the program becoming fully subscribed.

Incentives Attrition program dollars are previously reserved funds, from approved applications that received a Reservation Notice, until the application progressed into a Cancelled, Withdrawn, or Forfeited status, as defined by NRS code 701B.255.

All Program Review pages detail program spending to date toward \$295,270,000 incentive cap.

Solar PV

Program Summary Monthly Detail

In November, \$585,324 was paid out and \$0 was reserved. There was \$213,831 of attrition made available to LISEP. There was \$2,410 of newly available funds made available to the energy storage incentives program.

November 1, 2019 Beginning Balance					
	Incentives Paid		Incentives Reserved		Incentives Available
	North	South	North	South	
Residential/Small Business	\$6,016,898	\$49,040,521	\$306,261	\$5,431,152

Electric Vehicle Charging Station Attrition and Newly Available funds become available funds within the electric vehicle charging station incentives program.

Legislation, Regulation, and Compliance

The week of November 3, 2019, NV Energy had conference calls with representatives from Douglas and Washoe School Districts to present and discuss the route and technical cost/benefit analysis prepared to support applications for Senate Bill 299 electric school bus incentive program.

A ribbon cutting ceremony was held in Jean, Nevada to celebrate the completion of the first electric vehicle charging station as a part of the second phase of the Nevada Electric Highway. This project was completed in partnership with the Nevada Governor's Office of Energy and Terrible Herbst and is a key site in providing high powered electrical vehicle charging stations between California and Nevada. Senator Brooks, Chairwoman Monroe-Moreno and Commissioner Naft were some of the elected officials who attended this ceremony.

A Low Income Solar Energy Program (LISEP) stakeholders' collaborative meeting was held on Friday, November 22, 2019. In attendance were NV Energy, the Nevada Governor's Office of Energy, Public Utilities Commission of Nevada, Nevada Division of Housing and representatives from the low income housing development industry and solar energy system installation contractors. The meeting provided an opportunity for various stakeholders to provide input and insight into the development of the LISEP program as part of NV Energy's Annual Plan filing scheduled for February 2020.

For phase II of the Nevada Electric Highway, the preconstruction task order for the site located at Luning was fully executed. In addition, the sub-grant agreement for this site was fully executed with the Nevada Governor's Office of Energy. For the site located at Schurz, the Walker Paiute tribe council approved the project, and will expedite execution of the host site agreement for the site.

Monthly Report Modifications

Continual data reconciliation of the application portal data and decimal rounding will result in marginal variances between reports and any significant variances will be explained.

Workshops, Meetings, and Events

The clean energy programs staff attended the following event(s) where they handed out brochures and/or answered questions from the attendees:

- November 9, 2019 → Electric Vehicles 101: Basics of Purchasing & Charging, Las Vegas
- November 18, 2019 → Zero Energy Home Workshop, Las Vegas
