

What is GreenPower?

GreenPower is clean energy generated from renewable resources such as solar, wind, geothermal and biomass sources.

What is conscious living?

Conscious living practices involve teaching our children how to incorporate environmental stewardship and sustainability of our earth's natural resources into their daily lives.

Help Nevada's Kids Grow Up Green!

The GreenPower program's mission is to support and promote educating Nevada's K-12 students in renewable energy and incorporating conscious living practices into their daily lives.

The GreenPower program works with Nevada's K-12 educators to implement energy conservation concepts and practices into the classroom and also provides ideas, books and hands-on teaching tools to help students learn about and use green power. The GreenPower program has also installed permanent solar panels and wind turbines at select school sites to help students learn first-hand how renewable energy is generated. GreenPower provides teachers with renewable energy knowledge and resources, including an annual teacher training and assistance with special projects. All of these services are 100% free to the school.

Since its inception in 2000, GreenPower has been a partnership between DRI (Desert Research Institute), volunteer committee members, NV Energy and their customers.

How can I help Nevada's kids grow up Green?

When you volunteer to add a few dollars to your monthly electric bill, you are giving the knowledge of renewable energy and conscious living to Nevada's future power customers. When they grow up to be consumers, they will be able to make cleaner, greener decisions for their own homes and businesses.

GreenPower is funded by the generosity of people like you. For just a few dollars a month, you can help students learn about GreenPower topics. All contributions are tax-deductible to the fullest extent allowed by law and your individual tax situation.

To sign up, fill out the form and return it with your next NV Energy bill, or visit NVEnergy.com today.

Yes! I'd like to help bring GreenPower topics to Nevada's students!

Please fill out the following and return it with your payment, or sign up online at NVEnergy.com

Name: _____ NV Energy Account #: _____

Address: _____ City/State: _____ Zip: _____

Phone: _____ E-mail Address: _____

I would like to add the specified-dollar amount to my monthly power bill*:

\$3.00 \$5.00 \$10.00 \$20.00 \$30.00 Other

I agree to have the additional amount specified above directed to GreenPower for a better Nevada.

By signing and submitting this form I give NV Energy permission to provide my name, address and contribution amount to the DRI so I may receive income tax information for my records.

Signature: _____

Print Name: _____

*Minimum six month commitment required. After six months, the customer can participate on a month-to-month basis. You can cancel your GreenPower donation any time after six months by calling Customer Service at NV Energy South (702) 402-5555 or NV Energy North (775) 834-4444.
