Sierra Pacific Scholarship Program at the University of Nevada, Reno

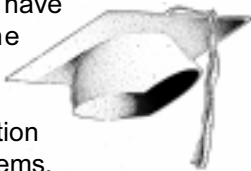

Sierra Pacific Scholarship Program at the University of Nevada, Reno

Sierra Pacific sponsors scholarships at the University of Nevada, Reno, to enable students to pursue studies in fields that relate to activities performed in the electric, gas and water utility industry.

A total of 87 scholarships of \$2,000 each are offered over a five-year period, beginning in the fall of 1997, to students in the College of Engineering, College of Business Administration and Center for Environmental Sciences and Engineering.

Five scholarships per year will be designated for Native American graduates of northern Nevada high schools in Sierra Pacific's territory. Scholarships not awarded will be made available to economically disadvantaged students.

These scholarships are part of a larger contribution plan designed to provide meaningful, long term benefits to the university, to its students and their families, and to the entire northern Nevada community. The Sierra Pacific Scholarship and Research Program continues the long partnership that Sierra Pacific and the university have enjoyed, including the funding of lecture series, support of academic programs and the implementation of cost-saving energy systems.

To be considered for the Sierra Pacific Scholarships, undergraduate students:

- 1) Must have graduated from an accredited northern Nevada high school, northern Nevada community college or northeastern California high school within Sierra Pacific's service territory;
- 2) Shall take a minimum of 12 regularly scheduled credit hours per semester at the university for the academic year in which they receive the scholarship.
- 3) Must major in a field of study offered within the Center for Environmental Sciences and Engineering, the College of Business Administration or the College of Engineering.

Center for Environmental Sciences and Engineering

The University Center for Environmental Sciences and Engineering (CESE) administers interdisciplinary environmental sciences and engineering programs at the graduate level. The Sierra Pacific Scholarships will assist undergraduate students pursuing degree programs in the environmental sciences to better prepare them for graduate school or the work force.

College of Business Administration

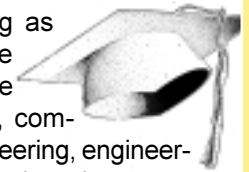

Students have attended business classes at the University of Nevada, Reno since 1888. The College of Business Administration (COBA) offers undergraduate programs in accounting, computer information systems, economics, finance, gaming management, international business, logistics, management and marketing. Graduate programs include the master of business administration and economics.

More Details: (702) 784-4912

College of Engineering

The College of Engineering is comprised of four departments: civil, electrical and mechanical engineering as well as computer science. The college offers baccalaureate degrees in civil engineering, computer science, electrical engineering, engineering physics or mechanical engineering.

More Details: (702) 784-6925

How to Apply

1. Complete a University of Nevada, Reno Scholarship Application, indicating your interest in business, engineering or environmental sciences. A scholarship application is included in the "Application Package" booklet, which is available at the Office of Admissions and Records. Students can also pick up scholarship applications at the Scholarship Office, located in Room 200, Thompson Student Services Center.

More Details: (702) 784-4661.

2. If you are a new or former student applying for admission to the university, mail your completed scholarship application form, along with the admission application, to:

Cashier's Office/124
University of Nevada, Reno
Reno, Nevada 89557

3. If you are a currently enrolled student, mail your completed scholarship application forms to:

Scholarship Office/076
University of Nevada, Reno
Reno, Nevada 89557

4. Make sure your scholarship applications are received before March 1.
