

Nonprofit Agency Grants

Energy Efficiency Funding from PowerShift by NV Energy

Nevada's nonprofit organizations save money and energy when they use energy-efficient technology to improve their facilities.

Individual projects up to \$5,000 may be eligible for 100% funding. Project costs ranging from \$5,000 to \$10,000 may be funded at 50% with a potential maximum grant of \$7,500 for the nonprofit organization.

NV Energy evaluates all applications and awards grants based on individual project electric energy savings and cost effectiveness.

Nevada's 501(c)(3)
nonprofit organizations
save money and energy with
grants from NV Energy.

Details

Qualifying Criteria

Nonprofit agencies applying for grants must:

- Have an IRS designation as a 501(c)(3) tax-exempt organization.
- Be physically located within NV Energy's service territory.
- Receive pre-approval for the improvement project before work begins.
- Provide written confirmation upon completion of the funded improvements with a copy of the contractor's invoice.

Equipment Options

Qualifying equipment includes lighting retrofits and installation of lighting controls or other measures that reduce energy consumption. Light-emitting diode (LED) bulbs have been the most popular measure thanks to their significant energy-saving capability.

Submit grant projects by October 15 of the program year. All improvement projects must be completed by November 15 of the program year. Funding is limited and provided on a first-come, first-serve basis.

Energy-saving Project

A food bank in southern Nevada qualified for grants to fund the installation of energy efficient lighting. Metal halide lamps were replaced with LEDs, which reduced the energy use by 3,164 kWh per fixture and decreased maintenance costs.

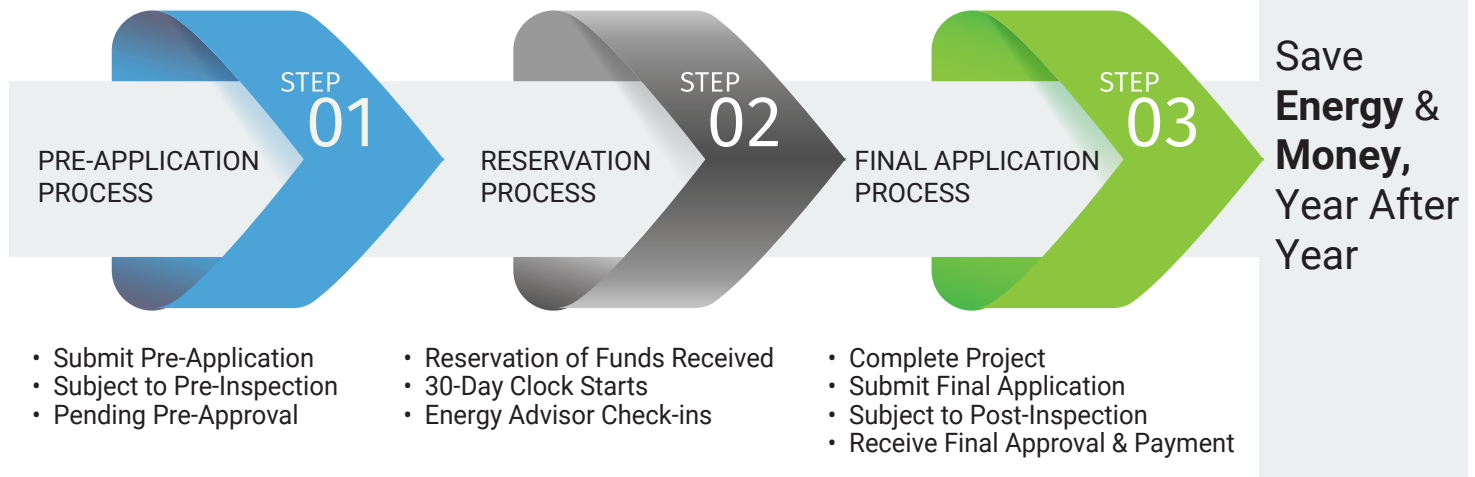

Estimated annual kWh savings: 85,431 (based on operating hours)

Project cost: \$11,070

Approved grant: \$7,500

Customer out-of-pocket cost: \$3,570
