## Small Business Customers Save with PowerShift by NV Energy

NV Energy's Business Energy Services helps small businesses save energy and money. Energy Advisors work with you to identify how to reduce your maintenance costs while improving your building's comfort. Eligible customers receive a free facility assessment, low-cost equipment installation and more. Qualifying equipment includes interior and exterior lighting, refrigeration controls and digital programmable thermostats.

### Eligibility

Non-residential NV Energy customers with annual electricity use below 400,000 kWh are eligible.

Save money on energy efficiency projects with equipment incentives and technical support tailored to your small business.

### Details

#### Benefits

Participating small businesses receive:

- A free facility assessment to identify all potential energy-saving equipment opportunities.
- A detailed proposal that includes a list of recommendations, energy savings estimates, project cost, payback period and rebate amount.
- Installation of qualifying energy-saving equipment.
- Inspections conducted to ensure quality and verify energy savings.
- Energy bill cost reductions.

#### Rebate Funds

The relative percentage of project cost covered by the incentive, the actual savings and payback periods will vary for each project. This information will depend on the energy efficiency equipment installed, building characteristics, customer usage patterns, age of existing equipment, location and other parameters specific to the project.

#### Find a Contractor

Finding a qualified contractor to complete your energy efficiency projects is easy. We offer customers authorized contractors through our Contractor Network who:

- Conduct a free, no-obligation energy assessment of your facility.
- Suggest energy-saving improvements and projects that qualify for incentives.
- Provide a proposal for energy-efficient equipment and expected return on investment information.
- Handle incentive paperwork.
- Install the incentivized energy-efficient equipment.

## Energy-saving Projects

Business Energy Services offers incentives to help small business customers save energy and money.

- A small business in southern Nevada replaced exterior lighting with energy-efficient LEDs.

**Estimated annual kWh savings:** 143,328

**Estimated annual electricity bill savings:** \$10,785
