Small Business Customers Save with PowerShift by NV Energy

NV Energy's Business Energy Services helps small businesses save energy and money. Energy Advisors work with you to identify how to reduce your maintenance costs while improving your building's comfort. Eligible customers receive a higher incentive rate compared to the standard retrofit program. Qualifying equipment includes interior and exterior lighting, kitchen equipment, and air-cooled HVAC units.

Eligibility

Non-residential NV Energy customers with annual electricity usage below 400,000 kWh and have been in operation for a minimum twelve months are eligible.

Save money on energy efficiency projects with equipment incentives and technical support tailored to your small business.

Details

Benefits

- Energy bill cost reductions.
- Customers or contractors can submit an application.
- The application provides a clear list of proposed energy savings measures, estimated project cost, and anticipated rebate amount.
- Installation of qualifying energy-saving equipment.

Rebate Funds

Small business energy efficiency incentives can cover up to 90% of the total project cost! Incentive amounts are dependent on the type of equipment removed and installed, building type, and hours of operation.

Find a Contractor

If needed, finding a qualified contractor to complete your energy efficiency projects is easy. Our Trade Ally network is comprised of contractors who can:

- Suggest energy-saving improvements and projects that qualify for incentives.
- Provide a proposal for energy-efficient equipment and expected incentives.
- Handle incentive application paperwork.
- Provide and install energy-efficient equipment.

Energy-saving Projects
